Color programs magically attract new guests

Easy and quick to assemble

Your kitchen creations deserve good lighting, the service can work more effectively and: the guests are pleased with the incomparably pleasant atmosphere. Lume-1[®] pro turns any parasol into a large-area and excellent table lighting. The mix of indirect and direct lighting creates a particularly well distributed light.

Clever: one click and the light stick is mounted on a strut of the umbrella. Or removed again! The control of the brightness and all colors is convenient and easy by remote control.
